ONTARIO GOLF TEAM LEADING

(Continued from Page 1)

States amateur once when he toured the last nine holes of the first round, par 71.

He took a dismal 43 on the way out but mastered his game soon enough to send his team into the lead.

LEONARD HAS 71

Stan Leonard from British Columbia and Bob Proctor, Alberta, posted the low scores in the morning round, par 71.

Both went out in 36 and home in 35. Following them with 72's were Dick Moore, British Columbia, Phil Parley, Ontario, and Bud Donovan, Manitoba. There were three 73's—Don Cardie, Ontario; Ted Innes, Quebec, and Bill Taylor, Quebec.

Demand For Canadian Apples In Egypt

Nile Country Fourth Largest Foreign Consumer of Fruit, Says Trade Commissioner

Canadian Press

Ottawa, Aug. 12.—The Egyptian market for fresh apples which, up to a few years ago, had been actively neglected by Canadian growers, has now become the fourth largest foreign consumer of Canadian apples, writes Yves Lamontagne, Canadian trade commissioner in Cairo, in The Commercial Intelligence Journal. During the calendar year ended December, 1933, imports of Canadian apples into Egypt were valued at over \$180,000.

Canada and the United States together exported from 130 to 140 carloads of boxed apples to Egypt during the last season, of which each supplied about 50 per cent. With Canada slightly in the lead, Canada's share would have been considerably greater had it been able to supply the quantity of large-sized apples which it is able to offer in a normal year but which was materially reduced last season by the severe hot spell experienced in the Ontario Valley.

The most popular apple in Egypt is the Newton, followed by the Winesap. Canadian apple growers and shippers might do better with the earlier fruit, such as Winter Banana, McIntosh and other varieties, pending arrival of Newtons in Egypt, if greater care were exercised in their handling. The demand for large apples, apart from the American and Canadian boxed apples, Egyptian imports are chiefly from Italy and Turkey, says Lamontagne.

IN PALESTINE

Palestine's requirements for apples differ considerably from those of Egypt. Whereas the preference in Egypt is for large and yellow apples, Palestine prefers red and smaller fruit, about 150 to 200 per box or 2 and 2½ inches in size. Palestine's imports of apples were valued at about \$115,000 in 1933 and \$194,000 in 1932. Imports were still larger in 1933 and the demand for boxed apples is growing. This demand has been supplied chiefly by the United States.

Wage Legislation For Boys Promised By Labor Minister

(Continued from Page 1)

"From my experience I can not imagine any boy over eighteen who, with a year's experience, is not worth \$12.75 a week," he said.

SEKS CO-OPERATION

The minister also appealed to all employers to assist the government in bringing into effect a principle which would enable hundreds of young men to the province by providing them with wages which would take care of their living expenses.

WILL CHANGE LAW

Mr. Pearson announced at the same time the government next session would seek an amendment to the minimum wage law which would enable the Board of Industrial Relations to fix wages for boys under eighteen years of age.

Having had a close association with both sides of the argument, first as a retail clerk and later as an employer himself, Mr. Pearson regarded the mercantile wage order as one of the most important the board has yet.

The order will be reviewed by the board, he said, but of course, would not say what decision it would reach.

The retail merchants' association has asked for an exemption in the case of delivery boys who are being replaced with youths under sixteen years of age so the scale need not be paid.

SUGGESTS U.S. PAY FOR ROAD

A. J. Dimond Advances Plan to Complete Alaska Highway Through B.C.

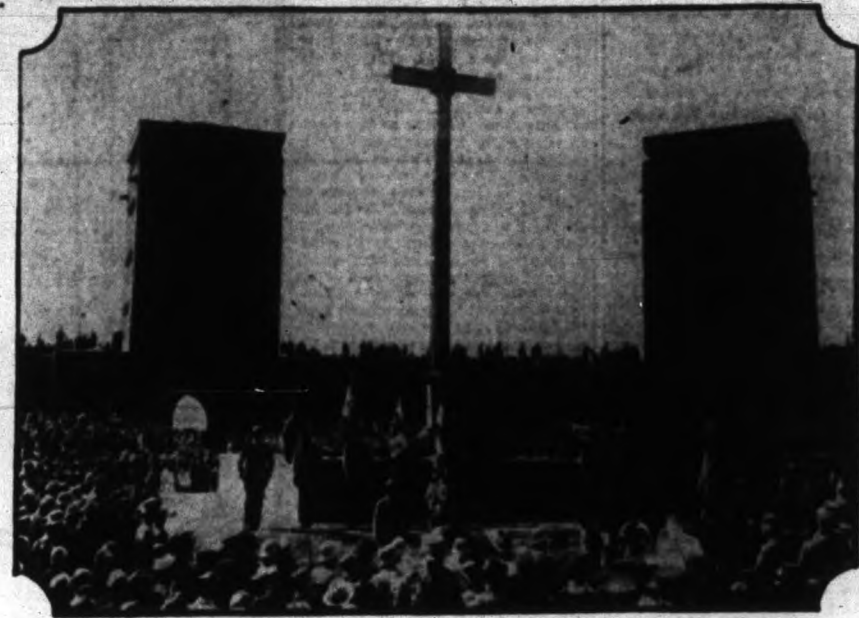

Associated Press
Seattle, Aug. 13.—Plans for a new battle in Congress for completion of the 2,200-mile Seattle-Parkland Alaska-Pacific Highway were announced here Saturday by Anthony J. Dimond, Alaska's delegate in Congress.

"I believe we should offer to build the 1,000 miles in Canada, as well as the 200 miles in Alaska, if it is necessary to link our territory with the rest of the United States," he said. "I am planning to draw a new bill, which will authorize the President to make any arrangements that may be advisable with Canada, as well as providing the necessary funds, both for the Alaska and Canadian sections."

Dimond's re-election is assured, as he is without opposition. The election will be September 11, instead of November 6, the advanced date being selected by the territorial legislature in view of the "lame duck" amendment, which assembles Congress in January, and the difficulties in getting returns from remote precincts in time for the election to leave for Washington, D.C.

Dimond declared Alaska needs "home rule" for fish and game. He said he was hopeful President Roosevelt would take a vacation trip to Alaska next summer, in accordance with a promise to make a tour of the territory some time during his administration.

MONUMENT TO HINDENBURG BECOMES HIS TOMB

This huge fortress-like memorial to General Paul von Hindenburg, erected at Tannenberg, East Prussia, where the famous general turned back the invading Russians in 1914, now sits dead German President's tomb. The picture was taken during a recent ceremony in honor of the famous soldier.

Expound B.C. Apple Control At Ottawa

Three Representatives Have High Percentage of Growers Supporting Plan For Marketing Limitation

Ottawa, Aug. 13.—Three officials of the apple growers of British Columbia are in Ottawa prepared to take up with the new Marketing Board their scheme to regulate the marketing of the apple crop. They are W. E. Haskin, president of the British Columbia Fruit Growers' Association, and O. W. Hembling, vice-president, and G. A. Barrat, a director of the Associated Growers of B.C.

"We are well pleased," Mr. Haskin stated, "with the personnel of the new board, composed as it is of departmental officials already familiar with our needs."

"We were fearful a political board might be appointed and time would have been required for such appointees to acquaint themselves with the situation. We have been working all along with the men who have been named. They are technical men already well informed."

"We have laid our scheme before the apple growers of British Columbia," he added. "In the vote 85 per cent of the growers cast their ballots and 90 per cent of these favored our scheme." This, he said, showed British Columbia was behind the proposal. Regulated marketing had been attempted for years but had met with many difficulties owing to lack of authority.

The proposal calls for an export board selected by the growers, with a local board for British Columbia to regulate domestic trade. The local board will name the B.C. representative on the Dominion-wide export board on which Nova Scotia and perhaps Ontario also will be represented. Mr. Barrat has represented the Associated Growers in the United Kingdom for a number of years.

He explained that at the Imperial Conference in London, where apple imports into the U.K. were discussed, the complaint of the British growers was that Canadian lower grade apples which came into direct competition with their product, took their market away from them. It was agreed that Canadian exports should be regulated to avoid this.

BRITISH MARKET
To give the British growers an opportunity to dispose of their crops, which are particularly heavy this year, it was decided to refrain from shipping domestic grade apples from eastern Canada or the corresponding Grade "C" from British Columbia into the U.K. market before October 15, and then only in such quantities as would not break the price. To do this an export board was required. This would probably be the extent of its regulations of export trade this year, Mr. Barrat stated. A steady flow of higher grades would go forward.

Fears that the B.C. local board would use its powers to unduly boost the price of apples on the prairies were grounded, Mr. Haskin contended. "Apples are a luxury and if you make the price too high people will not buy them," he said. The apple crop of British Columbia would be about the same as last year, around 4,000,000 boxes, and much of it would be marketed in the prairies.

The object of the local board would be to insure a steady flow of apples into the various centres on the prairies, so there would always be sufficient supplies without a glut. Ottawa helped no one, he contended. Last year most of the apples from B.C. were marketed by the Stabilization Board and while conditions in Canada were no better than the year before, the returns to the grower were double what they were in 1932. This showed what regulated marketing was able to accomplish. In 1932 the growers did not get returns to meet the cost of production. Much greater improvement could be made under the powers of the Marketing Act.

The provincial government was behind the growers asking for this scheme, Mr. Haskin said. He was hopeful that the Marketing Board would pass on the scheme next week.

ALBERTA GIRL SHOT TO DEATH

Police Believe Unidentified Body Found on Tracks That of Murderer

Edmonton, Aug. 13.—Rysle Sutcliffe, fourteen, Wildwood, Alta., was shot and fatally injured Sunday as she walked along the railway tracks three miles from her home. She died early to-day at Spruce Grove, Alta., while being brought to Edmonton.

Before her death she said that Steve Pagan was the person who shot her. Coincidentally with her death was the report of the finding of a man's body on the railway tracks six miles east of Wildwood, but no identification has been made. Police suspect that it is that of Pagan.

The girl declared she was walking along the road when she met Pagan, who was riding a horse. Steven, she said, got off the animal, pulled a revolver from his clothing, walked up to her and shot her. He remounted the horse and rode away, leaving her lying on the roadway.

Police were unable early to-day to explain the reason for the tragedy.

WHEAT CARRY OVER FIGURES
Ottawa, Aug. 13.—The carry-over of wheat in Canada at the end of the crop year (July 31) is estimated at 193,222,863 bushels by the Dominion Bureau of Statistics in a crop report issued to-day. This total compares with last year's carry-over of 211,740,188, or a reduction of almost 18,500,000 bushels.

Wheat Canadian wheat in the United States is included, the carry-over this is 203,277,115 as compared with 219,428,398 a year ago.

The total stocks of Canadian grain in Canada in bushels at the end of the crop year, July 31, for the last three years follow:

	1932	1933	1934
Wheat	131,844,808	211,740,188	193,222,863
Oats	20,848,319	42,044,738	31,629,589
Barley	1,185,650	11,283,323	11,089,185
Rye	5,418,715	5,814,727	3,984,297
Flaxseed	1,321,388	1,179,979	471,280
Stocks in farmers' hands are estimated as follows: Wheat 8,733,000, oats 19,230,000, barley 1,839,000, flaxseed 3,600, rye 27,000.			

The total stocks of Canadian wheat in Canada at July 31, 1934, are placed at 193,222,863 bushels—18,417,329 bushels less than last year's total of 211,740,188 bushels.

Canadian wheat in elevators and afloat in the United States amounted to 9,954,283 bushels. The comparable figure for this item at July 31, 1933, was 6,220,210 bushels.

The total amount of Canadian wheat in Canada and the United States at July 31, 1934, was 203,277,115 bushels, compared with 219,428,398 bushels, the revised total for July 31, 1933.

Red Press Says Japan Is Responsible For Chinese Eastern Railway Trouble

Associated Press
Moscow, Aug. 13.—A reign of terror on the eastern line of the Chinese Eastern Railway, attributed by the Soviet press to Japanese and Manchurian efforts to force Soviet Russia to sell the railroad line, cheaply, was described Saturday, in a report by Russian Manager Kudin, of the railway. It was published in a dispatch from Khabarovsk.

Rudin's report, made to the joint Manchukuo-Soviet board of direction, stated that conditions had grown alarmingly worse between June 17 and August 6, enumerating:

Twelve train wrecks, forty-three hand rail wrecks, twenty-four railway employees wounded; fourteen robberies, twenty-eight cases of damage to the roadbed and rolling stock, twenty fires, nine cases of sabotage to telegraph and telephone lines.

He said the worst train wreck occurred July 28, when many members of the train crew were victims. The report listed, for the period between January 1 and August 6:

Sixteen trains wrecked by planned damage to the tracks, ninety-one armed raids on railway stations and barracks, 116 railway employees arrested or captured, nine bridges damaged, forty-six murders, including nine of railway agents; 102 persons injured, including eighty-three railway agents, forty-two robberies of railway employees, twenty-two arrests of railway property, twenty-one locomotives and 207 coaches damaged, physical losses of 300,000 gold rubles (\$150,000), and other damages several hundred thousand rubles more.

DIED FROM FALL
Calgary, Aug. 13.—Unconscious for more than forty-eight hours, following a fall from the roof of his home where he was painting, Oscar Jackson, sixty, died in hospital Sunday.

He fell a distance of twenty-five feet, landing on his head.

Further evidence of the return of prosperity to the country is provided by the Automobile Association, which shows that the number of new motor vehicles registered for the first time in April this year was 30,894, compared with 27,391 in 1933.

The complete figures for the several classes are as follows:

	April 1934	April 1933
power	19,491	17,420
Cycles	8,203	5,180
Motorcycles	281	383
Goods vehicles	3,305	3,839
Miscellaneous vehicles	614	598
	30,894	27,400

NEW EFFORT TO SETTLE STRIKE

Associated Press
Minneapolis, Aug. 13.—Efforts to settle the truck drivers' strike having again failed, federal conciliators started all over to-day in quest of peace terms acceptable to employers and strikers alike.

Objections to the reinstatement proviso for strikers were primary factors inspiring rejection of the proposition, said Vincent Dunnehand, Farrel Dubbs, strikers' leader.

The employers had offered a scale ranging from 40c to 50c an hour, and stipulated reinstatement should be made from a "preferred" list of employees, thus ignoring strikers' claims, seniority rights.

**TWO ENGINEER
JAIL BREAK**
Yorkton, Sask., Aug. 13.—Believed to have used a saw or a file, Adolph Andrychuk and Joseph Loxoff, of Winnipeg, engineered a jail break here yesterday and escaped from the police cells at the courthouse. Andrychuk was arrested in connection with a robbery at Rhein, Sask., last week. The latter was held on a charge of breaking into a Canora tailor shop.

MISSING MAN RETURNS HOME

Winnipeg, Aug. 13.—Ozell Irving was safe at his Brooklands home today after six days of aimless wandering in the bush country near Lac Du Bonnet, sixty-eight miles northeast of here.

Irving wandered from the trail while berry picking a week ago. For four days he trudged around in a swamp while search parties scoured the countryside.

Almost exhausted, on the fifth day his faltering steps led him to a power line, which directed him to the home of a farmer five miles from the spot where he entered the swamp.

**Harpoon Criminals
Advice to Police**
Newark, N.J., Aug. 13.—"Harpoon" your criminals like fish instead of shooting them, Police Chief McNeil was advised by a citizen to-day.

The citizen, Leonard Lamer, suggested a gun the size of a revolver, a harpoon equipped with a small harpoon and about 200 feet of strong line.

"When a criminal is caught by the harpooning method," pointed out Lamer, "you have a chance to press a confession, or perhaps this (harpooned) person is innocent, or can help unearth the real criminals."

The chief said he would think it over.

PIGGY WIGGLY

The following items are taken from our NEW DEAL advertisement, which is effective until Thursday evening, August 16. Visit your local PIGGY WIGGLY and take advantage of all the other NEW DEAL specials.

AT ALL VICTORIA STORES

Market Specials for Tuesday and Wednesday at 739 FORT STREET

SAVE THE POKER HANDS

"The purest form in which tobacco can be smoked"

A D-venture

Let them go to distant places!
Let them sail the seven seas!
Let them trade in spices, laces,
Scimitars and filigrees.

Let them dock at far-off Aden—
We can find romance and more
On the shelves so full and laden
Of our corner grocery store!

There we'll buy black tea from China,
Fragrant cloves from Zanzibar,
Figs that come from Asia Minor,
Other products from afar.

We can get at bargain prices
Coffee out of hot Brazil,
Simple foods, exotic spices—
Anything we want, at will!

Oh, they'll go on yearly whalings—
Let them! You and I can roam,
Build our ships and make our sailings
Within half a mile of home!

Let them follow their wild notions!
Let them sight their Trinidades!
City streets will be our oceans,
And our charts will be the ads!

There's a world of adventure waiting for you—in
the advertisements of this newspaper!

FOR THE TWELFTH TIME

THOSE WHO FEARED THAT THE Senior's Northwest Golf Association, which came into being in 1923, would be a novelty for a year or so and then a natural death because that novelty had worn off, must have been reassured by the twelfth tournament which began at the Royal Colwood Golf and Country Club to-day. Not only is the entry list an imposing one of upwards of 150, it also is perhaps one of the most representative to be recorded in the history of the association. In other words, this annual event is as popular as ever, and likely to remain so.

Victoria has a special interest in the doings of the Senior's Northwest Golf Association. It had its inception through the enthusiasm and initiative of a Victorian, Senator G. H. Barnard, and it has become an unwritten part of the constitution of the organization that the annual tournament be held in this city. Other points which contribute to the entry list quite substantially naturally from time to time have urged that a change of scene be tried; but these suggestions have generally been frowned upon, and so Victoria seems to have become established as the permanent host. This is an appreciation of our community in more ways than one of which our citizens, whether golfers or not, are fully sensible.

This annual tournament, however, furnishes more than an opportunity for friendly contests in one of the most popular pastimes of the day; it brings together men of mature years from all walks of life—men prominent in business, representatives of the clergy and the bar, leaders of public thought, statesmen and politicians, as well as those who toil in unpretentious fields of endeavor. It is, therefore, also an educational event, all the more important because of its international aspect. It furnishes an opportunity to renew old friendships and establish new ones. That this meet will be no less successful and enjoyable than those which have gone before, may be taken for granted.

THAT ARITHMETIC QUESTION

WE HAVE HEARD SUGGESTIONS OF there being a psychic quality about some of the items on geography and history examination papers in British Columbia, but no question here has aroused public discussion as has one on the high-school entrance arithmetic paper in Ontario. The question was:

During the month of May, five boys attended school as follows: 16 days, 21 days, 19 days, 18 days, 20 days. Give to one decimal point the average daily attendance of these boys.

Ottawa experts ruled that 4.2 was the correct answer. However, they allowed full marks for 18.8, which was the unanimous answer of a group of 600 Toronto pupils. This allowance was made on the grounds that the question was ambiguous. Despite the fact that arithmetic is supposed to be an exact science, London and Toronto experts have been unable to come to an agreement and the question has blossomed out as a matter of editorial controversy in the daily newspapers.

The Toronto Telegram cannot understand how the experts got into difficulties when out of one group of 600 of Toronto's traditionally bright pupils, none got any other solution than 18.8. It is asked how the average could be 4.2 days when the boy who attended the smallest number of days attended sixteen days.

The Ottawa Citizen comes back to defend the superior mental processes of the pedagogues at the national capital. It says the Toronto newspaper should explain how "if during the month of May there were five boys attending school, how could the average daily attendance be 18.8?" If each boy attended every school day of the month, the daily attendance could not be more than five.

The correct answer, according to the Ottawa way of interpreting the question, is worked out by this line of reasoning: In the month of May, 1934, there were four Sundays, 4 Saturdays, and one statutory holiday (Victoria Day), leaving only 22 school days. The aggregate attendance (16, 21, 19, 18, 20) was 94. Dividing the aggregate attendance (94) by the number of school days (22) gives the average daily attendance as 4.2.

However, 18.8 would be the correct answer if the question read:

Give to one decimal point the average days attended by these boys.

For the slower-witted Torontonians The Citizen explains that the "average number of days attended" and the "average daily attendance" are two different things, which is the key to the position taken by the Ottawa education experts. For the benefit of examiners it is pointed out that arithmetic cannot be an "exact science" as long as they do not observe one of the first rules for teachers-in-training, which is, "In asking a pupil a question, the wording of the question must be definite and contain no ambiguity."

JAPAN'S POPULATION

IT IS INTERESTING TO NOTE THAT government statistics issued in Tokyo show that the rate of population increase in Japan is slowly declining. The growth in population in 1933 was under that for several years. The birth rate declined slightly and the death rate rose a little.

It is too early, of course, to say that Japan is approaching the point of a stable population. Until that date is reached Japan must continue to be an aggressive, expanding nation. The terrific pressure of new population is forever forcing Japan to seek new lands, new resources, and new markets—with results which, like the Manchukuo episode, are often dangerous to world peace.

Until the island empire's amazing rate of population growth subsides, this condition will continue. Japan's militarism, in the last analysis, is largely caused by her people's great fertility.

R. T. WILLIAMS

ALDERMAN R. T. WILLIAMS WAS A resident of Victoria for seventy-five years and his passing, therefore, is another break in the chain of circumstance which connects us with pioneer times. From his early manhood he was identified with community undertakings. He had the satisfaction, moreover, in the evening of his life of serving the city as an active member of the council. It must have been gratifying to him as he knew the end was near to look back on a life well spent, of service given willingly and unostentatiously, while the knowledge that he was highly respected by his fellow citizens will be a comfort to those who mourn his loss.

He was a keen follower of current events, both far and near, but his interest naturally centred on the affairs of the community in which he lived so long. As an alderman he often ploughed a lonely furrow; but even if on many occasions he could not see eye to eye with his colleagues, the sincerity of his purpose was never questioned. His memory will always be associated with one of his most cherished hopes—that one day a bridge would be erected across Seymour Narrows and the Island connected with the Mainland by a permanent way. In season and out of season he championed this cause. Whether his proposal was economically or physically feasible is beside the question. He believed it was.

Mr. Williams was a veritable mine of information on the history of this community. He was an interesting writer and his reminiscences as contributed to the press had many readers. His friends were legion. He was kindly and personified and it is small wonder, therefore, that a large circle will extend to his family their genuine sympathy in their loss.

A GOLD MINE LONG OVERLOOKED

FOR SIXTY YEARS A HIGH GRADE gold deposit, now the Pioneer Mine in British Columbia, lay unnoticed in a well-known gold area, neglected by prospectors and engineers alike. Similarly in the midst of the famous Cariboo placer gold field lay gold veins in the solid rock that did not attract the attention of the placer miners, who had eyes only for the loose gold in the gravels. The Bridge River district and Cariboo district are, at this time, the principal sources of British Columbia's expanding gold production.

These gold mines and others in British Columbia, as well as the promising gold areas round about them, are discussed in the August bulletin of the Canadian Institute of Mining and Metallurgy in a paper by Victor Dolmage, of Vancouver. As a former officer of the Geological Survey of Canada, Dr. Dolmage gained a wide knowledge and a balanced view of the province's gold areas, and these he had employed in composing the present summary of their features. From the evidence thus adduced, one can conclude that lode mining of gold in British Columbia is now only well started, and that in time it will become even more important than the placer gold mining of the famous old Cariboo and other placer fields of the province.

GOOD RIDDANCE

IT IS GRATIFYING TO LEARN THAT the Dominion government, through the director of the newly-formed Canadian Tourist Bureau on representations made by Publicity Commissioner George I. Warren, has cancelled the order which required tourists coming into Canada with their own radios for their own use while on holiday to post a bond on them.

While the order now rescinded may not have had any very serious effect on the inflow of tourists while it was in operation, it was one of those irritating and unnecessary regulations—and goodness knows there are plenty of them in force already—which ought to be studiously avoided.

It is now acknowledged from one end of the country to the other that Canada's tourist business is of prime importance to our economic well-being. This being the case, it is to be hoped the national bureau will devote its efforts to increasing the revenue from this source.

WHAT OTHER PAPERS SAY

TORONTO POLICE AND "COMMUNISTS"
 The Regina Leader-Post

Once again Toronto police have clashed with the "Communists." A crowd gathered at the Union station in that city the other night to extend a "welcome home" to two of the men who have been serving terms at Kingston penitentiary for alleged violations of Section 98 of the Criminal Code two or three years ago. These two men—Sam Carr and Matthew Popovich—have been released before expiry of their terms on "tickets-of-leave," and the crowd was out at the station to exhibit a bit of enthusiasm at seeing them again. An effort was made to form a parade from the station to Queen's Park, where, it had been promised by the authorities, it would be in order for the released men to make speeches.

But the police would not allow the parade to proceed. A free-for-all fight resulted and a number of the demonstrators were arrested.

What was the matter with allowing such a parade to proceed? What was the matter with permitting these people to release all the enthusiasm they wanted to, provided no disorder resulted?

The Toronto police authorities possibly have done more to make for radicalism in Canada than any other agency.

\$15,000 AUTO DEATHS
 The San Francisco Argonaut

Unless one is a fatalist, statistics on the destruction of human life are of immediate personal importance. Like a railroad time table or a bank statement figures may mean nothing or everything, depending on one's situation, but it will be hard to find anyone who will not sit up in surprise when the statement is made that 128,000 persons have been killed by auto accidents since 1930 and that between now and 1940, 100,000 persons will be added to this total. For the decade beginning in 1930 fatalities will amount to the staggering sum of \$15,000—a total equal to half the population of San Francisco. Deaths will number more than the harvest of automobiles during the past four and a half years.

All the soldiers who have ever gone to heroic graves in defence of the American flag!

It would be possible to produce other figures, and to enumerate causes for automobile accidents; but the latter are as well known as their synonym "carelessness." For the former it is only necessary to state that the figures given above are based on the harvest of automobile deaths during the past four and a half years.

The moral is as plain as a traffic stoplight. No man can be sure that he will not be one of the \$15,000.

A THOUGHT

Is any among you afflicted? Let him pray. Is any merry? Let him sing psalms.—Peter, v. 13.

Life is a comedy to him who thinks, and tragedy to him who feels.—Boswell Walpole.

Loose Ends

There is nothing for the young to be discouraged about—but it must go deeper into the case of things—as Mr. Potts does—and Mr. Beak—and the old Indian.

By R. R. W.

YOUNG IDEA

THE FEDERATION OF YOUTH, being young, may be misled and perhaps a little discouraged to find that the world as large is not unanimous in supporting its idea that people were not born to murder each other in a wholesale fashion by modern warfare. The federation may be surprised to find that in Victoria some people write to the newspapers to insist that another war is inevitable and that youth had better get ready for it; most of the writers of such letters, by the way, being fellows who are too old to go to the next war but who can look forward to the slaughter of youth with a splendid fortitude. The federation and the young generally may be a little worried by such outbursts from those who, about to depart from this world before long, can endure the prospect of its destruction with a fine philosophical calm.

The federation and the young generally should learn that, on the contrary, such a reaction is the very best proof that its notions are beginning to get somewhere. Opposition of this sort never killed any cause. In the affairs of men the only lost causes are the ones that men won't react to at all, the ones that they just forget. When you find them declaring that a cause is absurd and hopeless, you may be sure there is some sense and some hope in it. Indeed, the most successful causes always start out that way—always are condemned by a large section of the public as sure to fail.

NOT LONG NOW

ANYWAY, youth needn't worry about the protests of those who are no longer young. Their opposition never stops anything. The awful process of nature, their opposition will be removed in due course and youth, which now struggles impatient and exasperated against the entrenched power of things as they are, will find itself miraculously in power itself.

Yes, the thing for the public to remember—an obvious fact, and as such usually overlooked—is that the young fellows who seem so callow and impractical to-day will actually be running this country in another ten or fifteen years. Ponder it, over, gentle reader. Ponder it in your bed to-night. Ponder the fact that these radical young persons who talk wildly about a new heaven and a new earth will be in control of everything very soon now. Ponder it and be awake till dawn.

NOT READY

YOUTH needn't worry about the old who can never be convinced. Nature will look after them. Probably most of them are beyond conscious anyway. Youth's problem, therefore, is "to convert itself." It will gain power automatically. Its job is to be ready for it when the time comes.

It won't get ready merely by making "demonstrations" against war, though the more useful it won't be ready until it is prepared to go below the surface and remove the inevitable cause of war, for the oldsters are right in asserting that, under existing governments, war is inevitable. The thing is to remove the existing governments, for if you don't you will have to fight for them sooner or later.

Let youth, on its part, ponder the fact that there has never been any peace in the world since the nations started on that era of exploitation which began in the early part of the nineteenth century. There have only been temporary cessations in military warfare. Economic warfare has only grown more intense and strenuous, and was never so fierce as in this time.

"Oh, noble savage, what do you think about the weather?" I said. "I dunno, I ain't thought much about it," he said.

"Yes, but have you not observed the signs of nature?" I said. "What of the beaver and the wild owl and so forth? Shall we have snow two squaws deep?"

"Ooh, how should I know?" said the mighty sachem. "But I read somewhere in the papers that some scientific guy in Washington, D.C., says it's going to be cold all over America. And I was listening on the radio the other night and a fellow from a

period of peace which followed the Armistice of 1918 and continues now.

Let youth ponder the fact that so long as nations fight with economic weapons eventually they will have to back up their fight with military weapons. So long as they attempt to prosper at the expense of their neighbors, eventually they will have to fight them. So long as you stand on some other fellow's neck there is always the danger that he will rise up some day and stand on yours. So long as you exploit society at large, either as a nation or an individual, you must protect yourself with a mob of gangsters. Until youth is prepared to do something about that, which is the basic cause of all wars, whatever the outer window-dressing, it will never be able to stem the tide of our present racial insanity. Demonstrations and crusades are useful in starting the process, but the cure of the trouble lies deeper.

WEATHER PROPHET

AS THE only reliable weather prophet in these parts, I have lately been searching the heavens and the earth to find out what is going to happen. I find that as early fall and a hard, hard winter are going to happen.

There can be no doubt about it. I have it on no less an authority than Bill Potts, our wood man, who has been predicting the weather, for years and years. Mr. Potts's advice to everyone, entirely unflinching by his own business interests, is to get in lots of wood for the winter.

"I don't mislead," Mr. Potts told me to-day. "That there'll be three feet of snow and zero temperatures before Christmas. Why? Well, take the oak trees. You wouldn't say, would you, that the oak trees didn't know what was going to happen after hundreds of years of experience? Take the oak trees, they're loaded right down with acorns. Last year they hardly had any acorns and it was the mildest winter on record. Nature knows, sir, and she's getting ready for it."

You take the mountain ash trees. I bet you're in it at my place. Usually the berries stay on the trees right on into the fall. This year the robins have started to eat them already. Most of mine is already eaten. That can mean only one thing—the robins are going south early. It's nearly fall now, I tell you."

SURE TEST

WITH THIS solemn warning, Mr. Beak was inclined to agree. He said he had just been sampling the loganberry wine he made in June—not drink it, you understand, but just sip and savor it and then to see if it's getting on like. Well, the way it's getting on like is amazing. I said Mr. Beak. I never see it so rich and potent like at this time of year before. I'd say it's got its October kick in it right now. In August, "That must be some wine," I think, "it must be going to 'ave an early fall all right. Well, with two 'undred quarts, I'm ready for it, come what may."

To check up on these scientific opinions I resolved the other day to consult the humblest prophetic of the weather who still survives among us. I mean the Indians, who depend upon such signs as the habits of the beaver and the wild owl. As it happened, I was passing an Indian village up by Sawmikan and I stopped and made inquiry from the head of the family, a patriarch of infinite age. Who, I felt sure, would be able to tell me what the weather would be like in the fall and winter.

"Kishowa," I said, by way of introduction for that is the old Chinook I know.

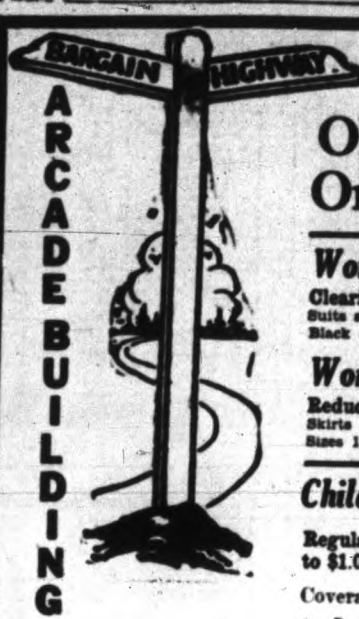

"Hello there," said the poor Red Man.

"Oh, noble savage, what do you think about the weather?" I said.

"I dunno, I ain't thought much about it," he said.

"Yes, but have you not observed the signs of nature?" I said. "What of the beaver and the wild owl and so forth? Shall we have snow two squaws deep?"

"Ooh, how should I know?" said the mighty sachem. "But I read somewhere in the papers that some scientific guy in Washington, D.C., says it's going to be cold all over America. And I was listening on the radio the other night and a fellow from a

DAVID SPENCER LIMITED

483 Sturdee Street, Esquimalt, August 10.

attacks on all we hold sacred and good, are meant for the moral and social collapse of human society. The large outbreak of crime at the present is due to the assaults against the truth of God and His word. Let us not deceive ourselves. If we allow God's word, the Sabbath, His gospel and church to be neglected, at the forces and dictating of Satan and the crime gangs of the world, we are going to reap the awful harvest of death and ruin. Strong words these, and none too true. Let us be warned, writers, not necessarily for publication but as a guarantee of good faith.

Letters will not be re-written for publication. If they are not legible no attempt will be made to read them.

Letters before our very eyes, returned to the writers.

Letters containing offensive personal reflections will not be printed.

These rules, which henceforth will be carried out absolutely, are designed as much for the protection of our readers as for that of the Times.

"LET US FORGET"

TO THE EDITOR:—May I be allowed a small place in your valuable paper to write a few words in respect to an article which appeared in a recent issue, viz., "Let Us Forget?" It affords me very great pleasure to state that Mr. Thomas's statement in respect of H. Clare. Having watched his movements for quite a number of years, I have no hesitations in saying he deserves the highest of praise for the work he has been doing. His cheery smile and kindly disposition have been greatly appreciated by many of the unfortunate returned men. I sincerely trust that the various organizations which he has been working for will see that he gets some reward for his untiring efforts in this respect.

DONALD F. MACDONALD.
 Shawanigan Lake, August 11.

CIVILIZATION

TO THE EDITOR:—As we look upon the prevailing conditions in the world to-day, with the chaotic state of central Europe, and the persistent striving of different factions far and foul, the upper hand; the unrest and opposing forces against good that are so obvious in the daily occurrences of violence, crime, death and suffering, with its continuous portents for the near future, we are led to ask: Has this great civilization any elements of stability and perpetuity residing in its general make-up? Is it any power superior to these things, any power in itself or preservative force that will result in its permanent security? History has been described as the graveyard of civilization, and its mighty empires have fallen to decay and perished, owing to the same conditions that prevail to-day, with their disregard of the eternal principles of right and wrong, truth and error, justice and injustice, mainly built and maintained upon armed force (often necessary), greed, selfishness, graft and avarice. Does not this unquestionably bear in itself the very seeds of its own destruction? In an editorial of an American journal, we read, "The many ethnic

MAYOR MADE PRESENTATION

Ray Clark, Promoter of International Highway, Honored at Wenatchee

Mayor Leeming and George I. Warren, publicity commissioner, have returned from Wenatchee, Wash., where they attended a large gathering on Thursday evening in honor of the birthday of Ray Clark, president of the Okanagan-Cariboo Trail Association.

The organization was formed to develop travel between British Columbia and Washington and to develop the Okanagan district on both sides of the international line, including the highway to Wenatchee, Lake Chehalis and Oroville, the Oliver and Penticton area and Okanagan lake, as well as Kelowna and Vernon and the highway to Salmon Arm, thence westward to Kamloops and through the Fraser River canyon to Vancouver.

Mr. Clark was the promoter of the new highway and the results of his advertising made the road one of the attractions of British Columbia and the hinterland to the south of the line.

FURNISHED BY GOVERNMENT
Mayor Leeming, on behalf of the Department of Provincial Information and the Victoria and Island Publicity Bureau, presented Mr. Clark with a mounted head of a Panning sheep, a rare specimen of mountain sheep to be found in the northern British Columbia country.

The magnificent head was furnished by the provincial government through the game department.

Mayor Leeming made an appeal in support of raising money for travel advertising, pointing out the highly competitive nature of the business and stressing the necessity of adequately financing compelling advertising to attract tourists.

Mayor John Mooney of Wenatchee, also the mayor of Cashmere, Wash., and county commissioners attended the meeting, which was held at the Canadian Hotel, Wenatchee.

CATARH—AMAZING RELIEF

"Catarrh" ends Catarrh for ever. Clear head, stops nasal discharge, restores vision, and soothes. Famous British remedy. Acts in 30 seconds. Buries head cold, stuffiness, Catarrh, Dandruff, Headaches, etc. from Importers: Chas. Hudson, Druggist, 2113 Oak Bay Ave. and Macfarlane Drug Co., Douglas and Johnson Streets.

Welfare Associations To Drive For \$50,000

Annual Appeal Will Start October 15; Expected This Sum Will Look After Needy Families in Greater Victoria

On behalf of needy and unfortunate families of Greater Victoria appeal to the general public for \$50,000 will open October 15, through the medium of the Friendly Help Welfare Association of Victoria, The Oak Bay Friendly Help, the Spanish Welfare Association and the Esquimalt Friendly Help. It was announced over the week-end by F. E. Winslow, president of the parent body.

Last year, after a good deal of consideration, it was decided the campaign for funds should be a joint one, carried out by these different associations under one campaign manager. As this arrangement proved so satisfactory, it has been decided to continue the same course again this year.

The amount to be solicited is expected to efficiently operate the four organizations for the next twelve months. In December last a drive was made for \$35,000 and the amount collected at that time will be exhausted by the end of September.

Besides looking after social service work in Victoria city, the Friendly Help Welfare Association gives its services in the outside municipalities comprising Greater Victoria. During last year the Citizens' Unemployment Relief fund furnished clothing until March, after which the work was undertaken by the Friendly Help Welfare Association. The average expenditure for this purpose for the last year was approximately \$2,000 a month.

Members of the committee are now working out the details of the campaign. A finance committee has been formed of four representatives from the city of Victoria, and two each from Esquimalt and Oak Bay, under the chairmanship of Mr. Winslow.

MAYOR BACKS BAIRD PLAN

Favors Establishment of Independent Assessment Commission

General support for the proposal of Robert Baird, inspector of municipalities, that an independent provincial board of assessments be established for British Columbia, was voiced Saturday by Mayor David Leeming, on the understanding that a board would act as one of appeal.

"It is one of the old recommendations in which I joined with the real estate board," Mayor Leeming commented. "An independent commission for all the provinces would bring about a more uniform system of assessing and would, in cases where assessments on land are kept high for the purpose of maintaining a comparatively low mill rate, furnish a means of adjusting valuations."

In cases where land was assessed above its value, improvements escaped their just taxation, he added. "In those places where improvements are taxed, it works an injustice against the man whose land is over-assessed for the purpose of keeping the mill rate down. Improvements are, generally speaking, assessed at or near their correct value."

The mayor cited the case of a property owner with land valued at \$1,000 and a home worth \$2,000. It was not uncommon in British Columbia to find such land assessed at \$1,500 and levy raised on only 50 per cent of the improvements. On that basis, the fair value of land, taxable in full, created a levy based on 150 per cent of the actual value of the land, and actually reduced the percentage levy on the improvements, which are intended to carry their just share of the burden of taxation.

"This has been one of the underlying causes for the reversion of vacant or uncultivated land," the mayor added.

B.C. Dairy Cows Have High Rank

Compare Favorably With List of U.S. Areas in Production

British Columbia dairy cattle hold high rank in comparison with other sections of the North American continent. It is indicated in figures obtained by the Department of Agriculture from the Bureau of Dairy Industry in the United States.

The three states having the highest average milk production per cow for all cows on test in dairy herds improvement associations include New Mexico first with 167 cows in one association averaging 11,000 pounds of milk, Nebraska second with 2,000 cows in twenty associations averaging 9,200 pounds of milk, and Colorado third with 1,518 cows in twelve associations averaging 8,970.

In butter fat production the three states having the highest average production per cow for all cows on test include New Mexico first with 167 cows in one association averaging 426 pounds of butter fat, Washington second with 3,442 cows in eleven associations averaging 346 pounds of butter fat, and Nebraska third with 2,000 cows in twenty associations averaging 345 pounds of butter fat.

Corresponding figures of British Columbia during 1933 show 3,222 cows in fifteen associations averaging 8,000 pounds of milk of 4.25 per cent butter fat yielding 340 pounds butter fat.

Nanaimo Children At Gyro Field Day

Nanaimo, Aug. 12.—Two thousand children and adults gathered at the No. 2 Gyro Playground, Halliburton Street, last Wednesday afternoon for the annual Gyro Kids Field Day. The field day was presided by a luncheon in the grandstand attended by His Worship the Mayor and several invited guests. Ice cream, hot dogs and pop was served to some 1,500 children. An excellent programme of sports followed under the supervision of Pete Macfie. Mrs. Kerr was the winner of the guessing contest. Following the sports a programme of music was rendered by the Nanaimo Silver-Corps Band under the direction of Fred Menzies.

CLEANERS & STYERS

SISTER MARY'S KITCHEN

ONE PICKLING RECIPE SERVES FOR ALL FRUITS, VEGETABLES

By MARY E. DAGUE
Nearly all fruits and many vegetables, especially carrots and cucumbers, lend themselves to this method of pickling. Carrots retain their color, are decorative to serve and easier to make than cucumber rings on account of their natural firmness. Unless cucumbers are at the right stage of maturity they become soft and mushy. Small green tomatoes and ripe small yellow tomatoes may also be used to make appetizing and colorful pickles which will serve as garnishes for winter salads and meat dishes.

Canned or dried fruits as well as fresh may be used for pickles. And melon rinds, both cantaloupe and watermelon should be added to the list.

COOK PINEAPPLE FIRST

For pineapple pickles, pare and slice the fruit and cook until tender. Then cut the slices in wedges and pour boiling vinegar syrup over the fruit for three successive mornings. The fourth morning, fruit and syrup are brought to the boiling point, put into sterilized jars and sealed.

Pears, peaches, apples and medium grapes are all good put up in a quick pickling syrup. However, any fruit that is picked without removing the skin or rind should be well placed over the entire surface.

The fruit may be cooked until tender in a clear water and simmered in the pickling syrup until transparent. Or the whole cooking process may be done in the syrup. The pickled material should be tender and clear, but firm and unbroken when put in cans. Pouring the syrup over the fruit or vegetables for several mornings in succession insures a perfect and unbroken pickle but prolongs the time of preparation.

The same general rule may be used for almost any variety of fruit or vegetable. The spices may be varied but the proportions of sugar and vinegar remain the same. The spices are used whole and tied in a small muslin bag. Powdered spices darken and discolor the fruit.

SWEET PICKLING SYRUP

One quart vinegar, 4 pounds light brown sugar, 1/2 cup whole spices.

Calculate 1/2 cup vinegar and 1/2 pound sugar for one pound of fruit. Put vinegar, sugar and spices into measuring bottle and bring to the boiling point. Boil five minutes before adding fruit or before pouring the syrup over the fruit.

TO-MORROW'S MENU

BREAKFAST: Pears, ready-to-serve cereal, cream, rice cereal, crisp toast, milk, coffee.

LUNCHEON: Cheese sandwich loaf, potato chips, mixed sweet pickles, tea, ginger ale.

DINNER: Cream of corn soup, halibut and radish salad, baked cucumbers, peach cottage pudding with creamy sauce, milk, coffee.

Your Baby and Mine

By MYRTLE MEYER ELDER

CHILD EAGERLY DRINKS FLAVORED MILK

Foods in which milk is incorporated are sometimes acceptable to the child who is tired of his regular milk. While we consider it of no value to force milk on a child who is sensitive to it, and therefore upset by it, there are times when the child's appetite needs some tactful spur and milk drinks may solve the difficulty.

Buttermilk may prove a rare treat to a child who has always been given only sweet milk to drink. During hot weather fresh cold buttermilk is a delight and the milky tart taste is appetizing when the desire for other foods wanes.

Sweet milk to which various fresh flavors are added makes a festive drink which sucked through a straw has all the appeal of a commercially concocted one. Strawberry, pineapple, peach, prune, orange or lemon juice can be beaten into cold milk or shaken up in a shaker. It offers delightful and novel possibilities. A syrup of sugar and cocoa and water can be boiled until thick, kept on ice, and a teaspoonful added to the milk to make a chocolate milk that appeals to almost every child. This is suitable for the child over three, but is not to be used for smaller children.

CREAMED SOUPS

Soups made of vegetables and milk, such as pea, asparagus, spinach, potato and onion, just to mention a few, are useful to increase the child's daily consumption of milk. Recipes for some foods to be made with milk are included in my leaflet, "Increasing the Child's Consumption of Milk," which may be obtained for the usual

HOROSCOPE

TUESDAY, AUGUST 14, 1934

Blissful good and evil aspects are active today, according to astrology. The morning will be an auspicious time for the preliminary of important business and professional matters.

It is a favorable day for pushing mercantile enterprises. Actions requiring should be heavy and should bring good profits in manufactured goods.

Agitation concerning foreign competition to American markets will be persistent in the autumn, when unusual trade conditions may be expected.

This is not an auspicious day to seek favors or even towards in politics. Dissatisfaction among the faithful of all parties may be provoked.

This evening is a fortunate time for conferences and for small meetings. There is a sign which encourages war decisions. The stars enable leaders to have vision.

Astrologers emphasize the fact that the stars inspire persons of every class to think of public affairs and to watch national trends.

Persons whose birthdate is 11 have the dignity of a year of average prosperity. They should watch the health of members of their families.

Children born on this day will be vigorous in mind and body. Subjects of this sign usually have supreme self-confidence and some occasionally amazing feats in attaining what they desire.

John Galsworthy, famous English novelist, was born on this day, 1867. Others who have celebrated it as a birthday include Ernest Thompson-seton, writer and nature lover, 1896, and Park Benjamin, journalist, 1900.

CHILD'S DOLL CENTURY OLD

Kitchener Girl Treasures

Wooden Doll Made About 1800

Canadian Press

Kitchener, Ont., Aug. 13.—Prized possession of a little Kitchener girl, whose family will not allow publication of her name, is a wooden doll, said to be 104 years old, handed down by her great-great-grandmother in Germany from generation to generation.

Brought to Canada in a wooden chest whose date of manufacture was indicated as 1800, the doll is believed to have been made the same year. The body is wood, with hinges fastened with screw nails for joints. The head, made of a substance resembling plaster of paris, is solid and fastened to the body with screws.

Mrs. Gretchen, to the triumph of Hapsburgs, to the rise and fall of monarchs and empires, the doll by no means preserves the fashions of the dying years of the eighteenth century. Until the present owner obtained the doll from her mother, who in turn received it from her brother, "Frau-lein Gretchen" wore a crinoline gown made with a bustle and an old-fashioned bonnet to match. Now, however, she flaunts the same of twentieth century modishness.

FIRST WIFE BACK IN ACTOR'S LIFE

Though they walked out of each other's lives seventeen years ago, George Bancroft, movie actor, and his first wife met again in Los Angeles the other day. The first Mrs. Bancroft, shown above as she appeared at the taking of depictions in the case, claims Bancroft never really divorced her, and asks separate maintenance, naming as co-respondent Bancroft's present wife and mother of his grown daughter.

At Saratoga Springs, N.Y., with the opening of the racing season, United States society, represented above by Alfred G. Vanderbilt and Miss Hope Harrington, is present in greater numbers than ever before to watch the races and take part in the renewed social activities of the city.

FIRST PICNIC BIG SUCCESS

Victoria West Liberal Social Club Outing at Elk Lake

Two hundred and fifty people attended the first picnic of the Victoria West Liberal Social Club, which was held at Elk Lake on Saturday, and the day proved a huge success.

Burning was enjoyed before lunch. Races were held in the afternoon. After supper baseball games were played. W. H. Kingman, president of the Liberal Association, attended with Major Hewson, president of Ward One.

G. Benton, president of the club, thanks all those who kindly donated towards the picnic fund, and Mrs. Orchin, Mrs. Bickney and Mr. W. Graham for their services, which no

doubt made the picnic a success, also the picnic committee and those who assisted in making the afternoon races a success.

RACES

Results of races were as follows: Total, 3 to 5 years—1, Albert Stickney; 2, F. Waring; 3, Billie Stickney; Girls, 7 to 9 years—1, Eva Hunter; 2, L. Stickney; 3, A. Einton.

Boys, 7 to 9 years—1, C. Shingles; 2, F. Wilson; 3, P. Jackson. Girls, 9 to 11 years—1, Nita Hunter; 2, E. Benton; 3, M. Norton.

Boys, 9 to 11 years—1, Don McLaughlin; 2, T. Bannister; 3, C. Randall. Girls, 11 to 13 years—1, C. Michaelson; 2, Iris Ryle; 3, Ema Ryle.

Boys, 11 to 13 years—1, Tom O'Neill; 2, E. Brown; 3, Jack Dalimov. Girls, under 18 years—1, Winnie Ryle; 2, E. Veer; 3, V. Whadden.

Single ladies—1, Mary Ryle; 2, V. Bennett; 3, J. Smythe. Boys, up to 18 years—1, Gordon Hartley; 2, P. Howe; 3, C. Kelly.

Married ladies (members)—1, Mrs. Orchin; 2, Mrs. Willis; 3, Mrs. Bannister. Married men (members)—1, A. Mummery; 2, J. Whadden; 3, Major Benson.

Ladies' walking race—1, Mrs. F. Thomas; 2, Mrs. Boney; 3, Miss J. Smythe.

Men's open—1, J. Foyer; 2, M. Carmichael; 3, E. Cottle. Sack race—1, Jim Foyer; 2, Jack Foyer; 3, Miss J. Smythe.

Result of picnic tombola—1, Mrs. Edwards, Elk Lake, half ton coal; 2, W. Stoen, Victoria West, half cord of wood; 3, F. Watson, Victoria West, two pounds of coffee.

Alberni

A wedding of considerable interest to residents of Alberni took place on July 20 at Progress, B.C., when Miss Violet Agnes, eldest daughter of Mr. and Mrs. I. E. Somers of Beaver Creek, Alberni, became the bride of J. C. Irving, son of Mr. and Mrs. Charles Irving of Huxley, Alberni.

Mrs. J. C. Thomas left on Wednesday to spend a week at Vancouver, the guest of her parents, Mr. and Mrs. W. W. Montrose.

Mrs. D. R. Kelly, accompanied by her mother, Mrs. C. A. Ewing and son, Donald, left on Thursday to take up residence at Quanaul.

Mrs. D. McCall and family are spending the month of August in Vancouver, the guests of Mrs. McCall's parents, Mr. and Mrs. J. McMillan.

The Netherlands East Indies government has banned air photographs.

MADE IN CANADA

Married Flirts

"It's a sin, Gypsey murmured, in her pretty bewitching smile. Then she giggled to herself. What would they all say if they knew what she was thinking?"

"Starting just" Derek leaned across to her.

"Tell" Her eyes shone.

"Tell what?" He was like that. He said very little, but you knew when he was for you.

The young man called Bobby, who was at Gypsey's right, began to talk to her about the theatre. Had she seen "The Bright Circle"? Oh, she must! she must go at once. It was grand. It was swell entertainment. she mustn't miss it.

Gypsey murmured something agreeable. "Tickets to 'The Bright Circle' she had heard, were selling at something like \$25 apiece. It was one of the hits. It wasn't the least bit likely that the young Weavers would see it that season. Or the next, unless it played what used to be known as 'the theatre district'.

Hilda Blanchard leaned across the table, saying something rapid and clever about the theatre. Bobby in Gypsey's two weeks hence.

"Darling, I can't," said the young man called Bobby. "I've got to be in town for Christmas and almost a year. You could just imagine him, bowing low to a princess and saying 'Your highness' in the approved fashion."

They moved away from the table after that: the rooms by now were crowded with smoke and almost unbearably warm. Gypsey had lit a cigarette in the huge fireplace at the end of the baronial living-room. Lila took Gypsey's arm.

"Darling, I can't," said the young man called Bobby. "I've got to be in town for Christmas and almost a year. You could just imagine him, bowing low to a princess and saying 'Your highness' in the approved fashion."

They moved away from the table after that: the rooms by now were crowded with smoke and almost unbearably warm. Gypsey had lit a cigarette in the huge fireplace at the end of the baronial living-room. Lila took Gypsey's arm.

CHAPTER VII

Someone turned on the radio and the sound of jazz blared through the big room. Hilda Blanchard held out her arms to someone—was it Tom?—and began to dance.

Hilda was in red-flame red, and her little black curls, feathering all over her small head, gave her a slightly Grecian air. She, like Lila, affected an unusual pallor and her lips were like a geranium slash in her pallid face. She hung on Tom. She was Gypsey observed, almost as tall as her, while she, Gypsey, was smaller, reached only to his shoulder.

Under her laughter, her civilized air of easiness, the most primitive of all emotions began to stir—that of jealousy. It was unbecoming, she admitted it. It was mad. It was utterly without foundation. Why, she had never laid eyes on this girl before in her life, and neither had Tom. Yet, from the first moment of entering the room, she had felt a vicious touch and a deadly suggestion of distrust. Hilda had liked Tom at sight, that much was certain.

"You can tell. A wife can tell," said Gypsey to herself with all the wisdom of her twenty-two years. Meanwhile she chattered and nodded her head: "absolutely" with emphasis, although she had the faintest notion what Derek wanted.

TIMID SOUL

Port Alberni

Major J. Cameron Johnson, who has been spending a short holiday in the city, left for Vancouver on Thursday.

Mrs. C. W. Blackman is visiting her daughter and son-in-law, Mr. and Mrs. A. W. Page at Vancouver.

Among the new residents arriving at Alberni are Mr. and Mrs. Cecil Miller and family from Victoria, who have taken up residence on Creamery Road.

After a motor trip through the prairie cities, Montana, Wyoming and the Dakotas, Mr. and Mrs. W. C. Hamly returned to their home here on Wednesday.

Rev. T. S. Giesendorf has as guests Mr. and Mrs. R. W. Shannon of Regina, who have been spending the early summer at Victoria.

the, least the "old man" young Mr. Weaver had pictured to himself. He carried his fifty years well. Handball and swimming kept him in the pink of condition. He was a decidedly attractive man in middle life. No one in his senses could have called him old, and Tom's frown attested to this thought.

"Give Marko a drink, darling, while we get our things," Lila cried, marshaling the workmen up the stairs. "The car is waiting downstairs. The latter endowment was directed at the great visitor. Gypsey was amused. Apparently "dressing" meant nothing on earth to Lila. She called her friends, her husband, her husband's home, all by the same affectionate term. The time Angeline had spent, secret to lovers down the ages, was the merest scrap of courtesy.

Hilda sat on a puff in Lila's room and smoked a hasty cigarette while the others renewed makeup and talked in the vague fashion women affect when they are absorbed in their personal appearance. Gypsey thought thoughtfully of the young woman with prematurely grey hair and bright blue eyes. She turned cordially to Gypsey.

"My dear, you must come to see me. I should love it. Come in for tea next week, won't you?" Gypsey explained lightly that she had a job.

"Oh, you write or paint or something, isn't that it?"

"No, it's kindergarten work, at a settlement," Gypsey explained. She felt self-conscious, with Hilda's critical eyes upon her. Hilda was measuring her frankly and coolly, in a disconcerting fashion.

"How very interesting!" Hilda contributed, in a drawing voice, at this juncture of the conversation. She rubbed her half-smoked cigarette out in an ashtray and stood up, stretching herself in leisure fashion.

"Come along," Lila interpreted. "They'll be shouting for us, we're dawdling so."

She took Gypsey's arm. As they went downstairs, she said in a low voice: "Don't pay any attention to her. She's a bit of a cat. Hilda is."

Gypsey held her head high, fastening the collar of creamy fur around her throat. The jibe had made her dark eyes brighter than ever. Marko crossed the room to stand at her side.

"You're looking so sweet, my child," he said in a throaty undertone. "How's life treating you?"

Gypsey could see Tom watching her. She smiled at Marko, doubtfully and demurely. This was splendid, thanks to very much. And how was he? Tom could not hear the words, but he saw the smile and saw, too, the worn clasp Marko maintained on Gypsey's small, ungloved hand.

"Let him see how he likes it," thought Gypsey, smilingly.

There were two cars downstairs. Marko's and a limousine ordered by Derek. Somehow—Gypsey never knew how it happened—she was in Marko's and Tom was helping Hilda into the other. The Wiltons rode in that, and Lila and Derek and Bobby came with Marko. Gypsey's heart beat thickly with jealousy and resentment. Why, Tom had hardly said a word to her when she'd come into the room.

THEY OPERATED ON TINIEST QUINTUPLET

Medical men at the University of Toronto have operated on the tiniest quintuplet, a child born with five heads and four bodies. The operation was successful and the child is now recovering.

The child, who is now three years old, was born in 1931. She has five heads and four bodies. The operation was performed by Dr. J. H. McEwen and his team.

The child is now recovering from the operation. She is expected to be discharged from the hospital in a few days.

KOLAR OFFERS SUMMER MUSIC

The Detroit Symphony Orchestra, conducted by Victor Kolar, will present another program of summer music featuring Alvin's Swedish rhapsody, "Midnattsmusik," over the Columbia network, from 12 to 1 p.m. P.S.T. to-morrow.

Alvin's popular rhapsody in written in the form of a fantasy on Swedish folk melodies, giving a musical picture of the festival still celebrated in parts of Sweden on Midsummer Night, June 24 and 25. Kolar's other offerings will include Adam's stirring overture, "If I Were King," Kalmann's First Symphony in G Minor and Chopin's Polonaise in A Major.

KOL and KVI are among the western stations broadcasting the concert.

BRITISHER

Are Gerald, English-born actress and newcomer to radio, brings charm and ability to her role as leading lady of the all-British stock company which presents "Raffles—the Amateur Cracksman," each Monday night from 8.30 to 9.30 p.m. P.S.T. over the Columbia network.

FEATURE TRICK IS DESCRIBED

Local Magician Tells of Headless Girl Stunt at Mystics' Convention

One of the outstanding tricks of the Oakland convention of magicians, in which an Oakland girl appeared to dance on a stage without her head, was described by Ernest P. Crookford, 415 Chester Street, secretary of the Victoria Assembly of Magicians, who returned to the city Saturday, with William Markness, another local delegate.

With the aid of a specially mixed luminous paint and ultra-violet rays in a darkened hall the artist was able to give the impression of dancing on one side of the stage while her head floated on the other. The effects, arranged by two brothers of Oakland, were excellent and the trick was generally conceded one of the best of the convention, Mr. Crookford said.

He was one of a party of seven which was left between the second and third floors of an Oakland hotel where the elevator switch was turned off by the manager as a practical joke. Included in the party were Mrs. Beatrice Houdini, wife of the great-est of magicians, and Mr. Markness.

Not to be outdone by the practical joker, Mrs. Houdini conceived the idea of emptying the elevator through the trapdoor. Mr. Markness opened the trap and within a few minutes the car was emptied to the astonishment of the manager.

RUMORED QUARTZ STRIKE AT BEAR

Canadian Press

Edmonton, Aug. 13.—Carrying a load of mining men to an unexplained destination in the vicinity of Great Bear Lake, Pilot W. R. "Wop" May hopped off from McMurray to-day on a secret "chartered mining trip," according to headquarters here of Canadian Airways Limited.

The flight gave rise to unfounded rumors that Major L. T. Burwash, famous explorer and geologist, had made a sensational discovery of quartz gold on his Yellowknife River trip.

Major Burwash was flown into the claims with the crew of six men by Canadian Airways last May from Edmonton, where, according to airmen, steady development work has been carried out. No sensational strike has been reported.

The Arctic explorer is at present at Cameron Bay, N.W.T.

Commission States Halibut Regulation Has Proved Success

For Third Successive Year Banks on B.C. and Alaska Coasts Have Shown Marked Improvement Due to Conservation Methods Reports J. P. Babcock, Chairman of International Control Body

The International Fisheries Commission, has found that for the third successive year the halibut banks off the British Columbia and Alaska coasts have, as a result of its regulations, shown a definite and marked improvement. This fact is established in the eighth report of the commission which the chairman, J. P. Babcock, issued here to-day. Entitled "Biological Statistics of the Pacific Halibut Fishery," the report explains the scientific basis for the commission's successful regulation.

As far as the halibut fishermen are concerned, good luck or bad is no longer due entirely to weather, particular kinds of bait, or success or failure of spawning. Some such explanation may suffice for the catches of trout fishing, for the catch of pike or herring, or perhaps the number of clams one can get from the beach in a Sunday afternoon; but in the case of the halibut the fishing fleet must from henceforth come good or bad seasons upon its own previous activities, the report says. By most complete and conservative statistics, brought together for the first time in any fishery, the commission has fairly traced

to its source the great decline which the halibut has shown in coast waters.

BETTER CHANCE FOR HALIBUT
It is, after all, a simple matter, very like what happens to crops or forests, if halibut grow quickly, so that the young gain more each year than they lose by natural death, etc., it is profitable to leave them in the water as long as possible. In that way they reach not only a larger size, but they are able to spawn. The same is true of the trees in a forest. In the case of halibut the number of young that reach commercial size and arrive on the banks cannot by any means be increased by an increase in the fleet. All that is accomplished by fishing too much gear is an increase in the proportion taken each year, and the records of the commission show that the chances of escaping the gear become very small indeed. The average young halibut has therefore been caught within the first two years after he becomes of size sufficient to take. The commission, by its regulations, is giving him a better chance to delay capture. Although a few more halibut are thus allowed to die naturally, the loss is more than made up by the more numerous catches and the larger size of the fish when they are caught.

NOW DEPLETION STOPPED
The report demonstrates that not only had the fleet increased its activities and the cost of operation far beyond what was most profitable, but the fish had seriously decreased in production of young. In 1912 the banks off the coasts of British Columbia and southeastern Alaska produced 60,000,000 pounds annually; now they can produce but 22,000,000. In 1907 the fishermen caught 300 pounds when he set his "skate" of gear; in 1930 he was getting only thirty-five pounds. At the present time the catch per skate has risen 60 per cent and the total catch has ceased to decline. If time is given for the increase in spawn to show, this total will also rise back to something like the old level. The com-

With the picturesque town of Gosport in the background and great white clouds scudding across the sky, the Endeavour (extreme left) can be seen leaving England for the long trip across the Atlantic Ocean. On the right is the trim yacht Vita, owned by T. O. Seg with, which escorted the British challenger across the briny. Note the specially shortened mast which the Endeavour used for the long journey over the ocean. The Endeavour is now at Bristol, B.I., being groomed for the big race.

mission shows that its regulations have changed the halibut fishery from a declining one to an increasing one, preserving for the two countries concerned one of their greatest resources.

Mr. Babcock stated extensive and interesting scientific work has been necessary to reach these conclusions. The rate of growth for thousands of fish from all parts of the banks has been determined by means of microscopic examination of growth rings on the ear bones of the halibut. To study migrations some 15,000 halibut were marked with serially numbered metallic tags and recovered for observation by the commission through rewards offered to fishermen. The young were discovered to be minute and transparent, floating in mid-water over great depths. They were

caught by means of fine-meshed silk nets which were dragged patiently day after day during the storms of the winter months in the Gulf of Alaska. The currents that carry them have been traced and measured by drift bottles and other less direct means.

REMAIN IN OWN DISTRICTS
As a result it has been found that distinct stocks of halibut exist in different areas. Although an occasional fish may migrate 1,500 or 2,000 miles the great majority have their own district. The spawners migrate against the current; the young drift down—the two so balancing that the stock in such an area as the Gulf of Alaska may be said to have adapted itself to life in the great eddy that

flows through that region rather than to any particular coastal banks. The commission, the report states, "therefore believes that by regulation not only the yield from what young are available will be greatly increased and require less effort on the part of the fishermen, but that ultimately more young will make their appearance annually. It hopes to determine what is the most favorable intensity of the fishery in order to get the largest permanent yield from each stock. It seeks to continue to provide regulations which will permit the fishermen to make as large catches as can be made without endangering the future supply. In short, the commission has reason to believe that the fishery can be established on such a permanent basis as will benefit both the fishermen and the public at large of both nations."

SOOKE

The regular monthly meeting of the Ladies' Aid Society of Knox Presbyterian Church was held at the home of the president, Mrs. S. Lundie. It was decided to hold a garden party at Sooke Harbor House on August 25. Arrangements were also made for a contribution sale in the Sooke Hall on November 15. Tea was served by the hostess.

A successful bazaar was held in the Sooke Hall on Friday evening in aid of the funds of the Sooke branch of the Women's Auxiliary of Holy Trinity Church. The sale was opened by the Rev. H. M. Bolton. Mrs. W. Locke and Mrs. J. F. Henry were in charge of the home cooking and candy stall. Mrs. T. Dyer and Mrs. A. W. McMillan, needlework; Mrs. M. Thompson, Mrs. A. Conant and Miss Patsy Porteous, guessing and tombola tickets; Miss D. Colthurst and Miss D. Thompson, fish pond; Mrs. D. Whittier and Mrs. H. Hubbard, tea tables; Mrs. D. Porteous, ten-pin bowling; Mrs. H. Shack, bridge; and T. Colthurst, ice cream. Tombola prizes were won by Mrs. D. Whittier, lady's evening jacket; P. Brown, Woodside Farm, cushion; Mrs. D. Porteous, jam; Mrs. J. F. Henry, fish; Mrs. T. Blight, jardiniere. Mrs. C. T. Muir guessed the correct weight of a fruit cake. Bridge prizes were won by Mrs. D. Porteous and W. M. Bolton, first, and Capt. and Mrs. T. Gillett, consolation. During the evening a pianoforte duet was rendered by the Misses Helen Welsh and Jeanne Thornber.

Mrs. E. J. Whittle of Tacoma has returned home after spending the last month visiting her daughter and son-in-law, Mr. and Mrs. S. L. Shields, here.

Mrs. F. Prud and son of Metcalchin are guests of Mrs. M. Murray for a few days.

GLEN LAKE

Members of the Lutton and Happy Valley Women's Institute were hostesses at a silver tea on Thursday afternoon, held at the home of Mrs. Lloyd Hutchinson and Miss Bertha Hall. Boating, games and guessing contests were added attractions, winners of prizes being Mrs. Roper, Douglas Knight and Jack Moffat. The proceeds of the affair are for the children's playground fund.

Dr. and Mrs. R. A. Jones, Trabouille Sanatorium, are visiting Mrs. Jones's father, Mr. E. W. Whittington.

The Misses Kathryn Johnson, Alice Anderson and Janet Moore, who have been holidaying at the lake, returned to their homes in Victoria last week.

GALIANO SHOW AGAIN SUCCESS

Fourth Annual Agricultural Exhibition on Island Draws Many Entries

Galiano, Aug. 12. — The fourth Galiano Agricultural and Industrial Show was a great success, about 200 attending.

Alex MacDonald, M.P.P., opened the show on Wednesday and Mrs. Murdoch and E. White of Victoria were the judges. V. Zala judge the pigs.

The committee consisted of Capt. G. P. Norton, secretary-treasurer; N. Morgan, assistant secretary; A. Oayner, chairman; A. Lord, superintendent; Mrs. C. P. Norton, Mrs. A. Lord, E. N. Bamforth and S. Page.

There were 700 entries from 100 exhibitors in the show. Mrs. A. Lord won a silver case for the best pound of butter. A dance in the evening was attended by about 150. Hagge's orchestra from Salt Spring providing the music.

The hall was decorated by G. Goodwin. Mrs. C. P. Norton and Mrs. Lord were in charge of refreshments and ice cream, assisted by Miss I. Rowden, Mrs. Stevens and Mrs. G. W. George.

SALT SPRING ISLAND

A meeting of the Ladies' Aid of the United Church was held recently at the summer home of Mrs. E. Parsons, Fruitvale, Ganges Harbor. Mrs. J. Mous was elected vice-president in place of Miss H. Dean, who has left to reside in Vancouver. Among those present were Mesdames E. H. Lawson, J. Mous, H. Kribbe, E. Parsons, W. M. Mout, C. W. Baker, J. D. Reid, F. Reid, H. Moon, J. Anderson, M. Obernd, H. Robbs, G. Derwurst, Miss G. Mous, Mrs. Mary Lee and Miss J. Nobbs. Afternoon tea was served by the hostess.

The Misses Constance Smith and Miss Gladys Stevenson of Langford are spending a holiday on Salt Spring Island.

Mr. G. Bittencourt of Bank Street, Victoria, is visiting friends on the island.

Mrs. Arthur Walter and Miss Mary Walter of Victoria have been guests for a week of Mrs. Edward Walter at Ganges.

Major and Mrs. Spurgeon of Victoria are spending a holiday on Salt Spring as guests at Rainbow Beach Camp.

Dr. and Mrs. Harold G. Burdon and family have returned home to Saanich after spending a holiday at Vesuvius Bay.

Mrs. B. Lemmox of Victoria, and her daughter, Miss Victoria Lemmox, are visitors on the island, where they are guests for a week of Mr. and Mrs. Charles Gardner in the Cranberry district.

Mrs. G. C. Lay of West Vancouver, accompanied by her children, has taken one of Major A. R. Layard's cottages at Rainbow Beach for two weeks.

Mrs. G. Johnston and her daughter, Miss Margaret and Kay Johnston, have returned to their home at Brentwood after a holiday at Vesuvius Bay.

Mrs. L. Thomson and Miss Lorna Thomson are visitors on Salt Spring from Vancouver. Mrs. L. Thomson is staying at Vesuvius.

Mr. and Mrs. A. C. Privett and Miss Shelagh Privett of Brentwood, are spending a holiday on Salt Spring Island.

Mrs. W. Scott Ritchie returned to Victoria on Friday after spending a few days at Ganges with relatives.

TEACHERS APPOINTED

Duncan, Aug. 12.—At a meeting on Friday night the school trustees appointed to select a teacher for the Duncan Elementary School to fill the vacancy caused by the resignation of Mr. J. E. Pugh, chose J. L. Shadbolt for the position. Mr. Shadbolt was formerly on the Duncan staff, and left to accept a position in Vancouver. Later he went to Toronto, and before leaving the east he took a commercial art course in New York. He is also interested in amateur theatricals.

Island Foresters Plan Convention

The eighteenth annual convention of the Vancouver Island District Foresters will be held in the A.O.F. Hall, Cormorant Street, on August 30 and 31. Delegates and members from all up-island points will be in attendance and a committee under the chairmanship of Mr. Homebrew is working hard to make the convention a great success. All delegates will meet on Monday, and as the conclusion of the business for the day will be entertained to a social evening with refreshments.

On Tuesday evening Court Cam-

240 months

from now what will you be earning?

you don't know but it won't matter if this Policy is on hand to provide the monthly cheques for '50, '75, '100 or more you will surely need.

WHEN you reach age 55, 60 or 65 you want to be able to take a real holiday. Not the kind that's over in two or three weeks—but the sort that lasts as long as you want it to.

The Imperial Retirement Income Policy not only permits this but does much more—

It provides an immediate estate—or income—for your family should you die prematurely.

It provides at your option a total disability provision which is most comforting.

It guarantees your Retirement Income for as long as you live and for at least ten years. Should you die before ten years elapse your beneficiaries will receive the remaining instalments.

It provides an old age full of dignity, independence and happiness—and it is amazing how long annuitants live! They have no financial cares.

WHERE FAMOUS WOMAN FLIER CRASHED IN DAYTON RACE

The wreckage of the plane in which Mrs. Frances H. Marshall, noted flier, crashed in her death during a race at Dayton municipal airport during the Women's National Air Meet, is shown above. Mrs. Marshall, co-holder with Helen Kitchy of the women's endurance record, established last December at Miami, is believed to have lost control of her plane during a landing race, after attempting to avoid a collision with another plane.

WORRY WART II

YOU FIGHT GERMS BEST WHEN YOU EAT WELL

Lack of Necessary Vitamins in Your Diet Shown to Lower Resistance of Body Against Infectious Diseases

By DR. MORRIS FINEHEIN

When you are run-down, underweight and weak, you are more likely to become infected by germs than at times when you are up to your normal weight and feel strong. Almost everybody knows this, but like many another fact that almost everybody knows, science likes to investigate the background and to know the reason for the condition. Before we knew that there were vitamins, less attention was given to the relationship of nutrition to resistance against infection, than is bestowed on the subject now. Since 1900, the idea that nutrition is directly related to resistance has gained ground.

It was known, for example, that a diet without vitamin C brought on scurvy and that a person or animal with scurvy was likely to become in-

fected. It was known that a lack of vitamin D in the diet brought on rickets, and that children with severe rickets seemed to become infected much more easily than those who did not have this condition.

It has been found that deficiencies of vitamin A bring on night blindness and changes in the eye, and it has also been established that, in some manner, a lack of vitamin A injures the mucous membrane of the nose and throat so that they become more easily infected.

There is no doubt that deficiencies of vitamin A break down to some extent the resistance to infection, particularly in nose and throat. When the lack of vitamin A is associated also with a lack of vitamins D and B, the danger of infection is still greater.

This does not indicate that you ought to eat vast amounts of these vitamins to prevent infection. Most people's diets have plenty of vitamins A, B, and C in their diets. You should be sure, however, that your diet is adequate in these substances. Any diet that contains plenty of milk, butter, eggs, and

fresh vegetables will have adequate amounts.

The mechanism of resistance to infection is a complicated one affecting the blood. The blood contains antibodies against various infections.

We are not sure yet that deficiencies of the diet are reflected directly on these antibodies but a great deal more study is necessary before the exact nature of the mechanism is understood.

Apparently, the likelihood of infection, when there are dietary deficiencies, is not due to any lack of these antibodies in the blood or to the power of the body to produce the antibodies. It seems rather to lie in the weakness of individual cells to get rid of infections which attack them.

All the evidence leads to the view that the likelihood of disease is not as a rule, affected by diet nearly so much as it is affected by exposure of the human body to some serious source of infection.

On the other hand, ability to resist infection when it enters the body can be greatly reduced by a deficient diet.

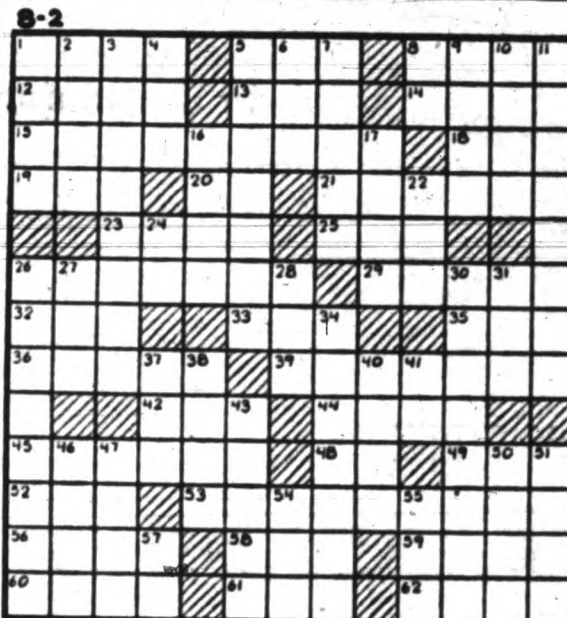

WHEAT FLOUR EXPORTS

Ottawa, Aug. 13 (Canadian Press).—Wheat flour exported in July amounted to 406,028 barrels valued at \$1,470,979 compared with 492,785 barrels at \$1,750,000 in the corresponding month last year, the Dominion Bureau of Statistics says in a report issued to-day.

The average export price last month was \$3.62 per barrel as against \$3.52 a year ago. The export for the first four months of the fiscal year, April to July was 1,671,426 barrels at \$5,809,200 as against 1,896,739 barrels at \$6,062,000 in the same period of 1933.

TO-DAY AND TOMORROW

WILLIAM WYNDHAM PETER BROOK

LET'S TRY AGAIN

WHILE WOOLLY COCKED CANAL

THE SCREEN

Comedy Pair At Playhouse

Whether or not the adage concerning clothes making the man has any basis in fact, it is recognized within the ranks of the acting profession that garments go a long way toward establishing a character.

Many of the foremost comedians of both the stage and screen are easily identified by the clothes they wear. Chaplin's baggy trousers and exaggerated shoes, Harold Lloyd's neat and perfect fitting suits; Buster Keaton's pancake hat; W. C. Field's frock coat, flashy waistcoat and high hat, and Laurel and Hardy's irreproachable business suits and undersized derbies—all have contributed to the outstanding characterizations of the screen since 1914.

In "Sons of the Desert," the Laurel and Hardy feature-length comedy opening to-day at the Playhouse Theatre, the world's most famous stock problem. Their attire is that which has made them famous throughout the many years of their professional partnership. Costumed shabbiness seems to fit their screen personalities as no other garment has, and but once in the past several years have the funsters discarded their stock habit in favor of more fetching attire.

Being shown as a second feature is Lupine Lane in "A Southern Maid."

"Raffles" At The Empire

"Raffles," the renowned jewel thief of the continent, comes to life on the screen at the Empire Theatre to-day in "The Return of Raffles." The latest adventure of the world's famous society crook is played by George Barrard, who is capably supported by Camilla Horn and Claude Allister.

The entire production was filmed in England, and is claimed to be one of the finest mystery stories ever filmed in the British Isles.

The second feature is also a crook play, "Midnight Club," starring George Rait, Allison Skipworth and Clive Brook.

"Scarlet Empress" To Open To-morrow

In the lavish screen spectacle, "The Scarlet Empress," which will open at the Dominion Theatre to-morrow, Marietta Dietrich has a role that suits her artistry.

"The Scarlet Empress" is not only the most pretentious production to bring Dietrich to the screen, but also provides special interest by reason of the comparative recent presentation of Catherine the Great with Elizabeth Berger in the title role.

The story is said to be based on the diary of the great Catherine, and it is directed by Josef Von Sternberg. The background of "The Scarlet Empress" is convincingly built, and a powerful impression is given of the barbaric majesty and cruelty that dominated old Russia. One of the fine features of the film is the musical score.

STARTS TUESDAY—FOR THREE DAYS ONLY

Woman of Whims... Queen of Caprice...

Marietta DIETRICH in "The Scarlet Empress"

***** Adorable *****

***** SHIRLEY TEMPLE *****

***** BABY, TAKE A BOW *****

***** DOMINION *****

Where To Go To-night

As Advertising
Capitol—"Let's Try Again," starring Brian Wynard.
Columbia—George Raft in "Bolero"
Dominion—"Shirley Temple in 'Baby, Take a Bow.'
Empire—George Arlino in "King of the Vampires."
Playhouse—Laurel and Hardy in "Sons of the Desert."
Crystal Garden—Swimming.

"Bolero" Now At Columbia

Shades of Irene Castle are casting important high lights on forthcoming spring fashions, according to Travis Stanton, Hollywood studio costume designer.

Slowly but steadily the items that marked the Castle fashion era from 1914 to 1917 are wedging their way back into modish favor, Stanton contends.

He believes that the wardrobe he has just completed for Carole Lombard, to wear in George Raft's starring picture for Paramount, "Bolero," now playing at the Columbia Theatre, will convince women of the possibilities and beauty of the pre-war modes.

Carole Lombard illustrates the use of the bouffant in "Bolero," with a gown of beige chiffon, extended as the hip line by the application of bands of baby fat.

Being shown as a second feature is Adolphe Menjou in "The Worst Woman in Paris."

CAPITOL THEATRE

Prolonging the honeymoon frame of mind throughout the year is the important problem of marriage treated in "Let's Try Again," starring Wynard and Clive Brook's starring vehicle now at the Capitol Theatre.

Offering a practical solution of a problem that confronts most married couples, "Let's Try Again" concerns Dr. Jack Overton, a prominent physician and surgeon who has gradually sloughed those little attentions dear to every woman's heart—and particularly to Alice, his beautiful wife whom he married ten years ago. Determined not to be cheated out of love, Alice turns to a younger and most susceptible man.

HOLLINGER MINES

Toronto, Aug. 13.—A preliminary operating statement for the six months ending June 30, issued by Hollinger Consolidated Mines Limited, shows estimated total profit of \$3,321,821. Value of gold and silver produced is estimated at \$7,516,473, and income from other sources \$446,015.

Operating expenditure, including all charges and allowances for bullion and other taxes, is estimated at \$4,194,652. Dividends paid including accrued to July 1 (\$504,000 out of 1933 surplus) are placed at \$3,321,821. Estimate of loss mined was \$20,604.

Philadelphia, Aug. 13.—Tommy Oughan has accepted offers for five bouts in Buenos Aires. Joe Smith, his manager, announced yesterday. The former light-heavyweight champion will leave for the Argentine capital September 1; board the liner American Legion. Oughan's first bout will be with the Argentine 180-pounder, Caratelli, several weeks after his arrival.

This trip is a sort of "consolation prize" which Coach J. Percy Page promised the girls last year when they were disappointedly beaten by Durant, Oklahoma, and thus debarr'd from participation in this year's Olympics. He pains his team again today by the prospect of a tour on which the girls will remember for the rest of their lives. Four exhibition games.

The team will go direct to Port William, playing there to-morrow night, Wednesday they leave for St. Paul, where they will stop at the St. Paul St. Marie. Toronto is the next stop and after spending a few days in the city, they will leave for Montreal and on to New York where four days will be spent but no game will be played.

Leaving New York August 23, the team will go to Hartford, Conn., continuing on to Montreal. Two days

Games of the Canadian National Exhibition. On August 26, a game against a selection of Toronto all-stars will be played in front of the grandstand. It is estimated that 12,000 people will be in attendance. Girls will then go to Chicago as guests of the directors of the Century of Progress. Leaving there Thursday night, the girls will travel to Winnipeg and will play their final game in that city Sunday, September 1.

THE SPORT IS VERY DANGEROUS,
 according to Dr. Gately of Madison

Empire's Athletes Finish Behind English in Final Aggregate For Games

Canadian Press
London, Aug. 13.—Canada's second British Empire Games efforts, spotted with unexpected setbacks, and unconvincing

tion. McLeod, Toronto, in the tenth round of the Empire's wind-up cyclone program, was defeated by a Canadian, McLeod capped the Canadian challenge.

SEVENTEEN WINS

As nearly 500 of the Empire's athletes started for home, Canada's record stood at seventeen. England had twenty-nine, of which eight were scored in track and field events. Australia had twenty-three with eight. South Africa had twenty-five, Scotland five and New Zealand and British Guiana one each.

In the women's world track and field championships, England and Canada failed to capture a championship as German girls swept the prizes. But there were five events won by Dominian athletes for all that.

SOFTBALL GAME

After two scoreless frames, the Red and oval boys took the lead in the first of the third inning by driving across four runs, only to lose it to the Canadians in the last of the same inning when the latter counted five tallies. From then on the Canadians led as a winning lead.

[illegible]

In the second set, Miss Raegener moved into a 4-0 lead on two service breaks, only to have Miss Young come back with three straight games, including one service break. Two bullet service aces in the ninth game, one on the second point and one at 40-30, brought Miss Raegener's chances to the fore again as they

Masked Marvel Defeats Kru

go to a body in the third to pin down the body of the Indian, flying over a shoulder butt. A single over the hole gave Demoran the round ball in the next round.

All bouts were refereed by Joe Pease.

Foursumes Open At Gorge Li

First round of the Roger T. Calculus foursumes was played Tuesday at the Gorge Vale Golf Club. Results follow:

J. Malwee and E. Colgate from C. H. M. Dorman and G. K. B. and I.

K. R. Sangster and W. Malwee from the Malwee as a W. Spence, 1 up.

O. A. Trickett and E. Peden

McCallum and F. Thomas

 bombs 2 and 2.
 A. T. Nunkin and A. J. Ma-
 won from W. Davenport and
 Wedderburn, 4 and 2.
 J. J. Bartlett and B. Cox won
 J. A. Wiley and D. B. Hurdie, 4
 J. G. Thomson and Capt. I.
 Roberts won from L. J. Denton
 J. T. Hallier, 3 up.

Chicago Cubs In Double Victory

LOVELOCK IN ANOTHER WIN

New Zealander's Great Run-ner Beats Bill Bonthron at Amsterdam

Amsterdam, Aug. 12.—For the third successive time Jack Lovelock, New Zealand's crack middle-distance runner, conquered Bill Bonthron yesterday, beating the American in the 1,500-meter race in an international track and field meet in the Olympic stadium.

A crowd that half-filled the stadium, saw Jerry Cornes, Britain, set the pace for the first 1,300 metres of the feature. Then Lovelock stepped to the front, closely pursued by Bonthron. Princeton's Bill could not match the New Zealander's closing sprint and Lovelock won comfortably in 3:53 minutes. Cornes was third.

MEL DRANGA WINS B.C. NET HONORS

(Continued from Page 14)

enabled her to take a 5-3 lead. In the ninth game, Miss Ragner had set point on Miss Young's service when time-out was taken to repair a hole in the net. On the resumption, Miss Ragner netted an easy serve from Miss Young but again had set point after the next rally. Miss Young, showing fine fighting spirit, eventually got the game.

The gallery also received a treat in the tenth game of this second set when Miss Ragner brought the score up to 30-40 on her own delivery to set point. She had the score levelled again. The Californian lost the next two points for set.

After the rest period, both girls showed signs of being tired. After a long first game, Miss Young won her own service, only to lose her opponent's and drop her own next delivery. She broke Miss Ragner in the fourth game after the Californian had led at 30-0 and again lost her own service.

Leading at 15-40 in her service in the sixth game and then fought her way up to a 4-3 lead. The Vancouver girl then showed signs of being tired and her opponent took out the next two games for game, set, match and championship.

One service break in the entire championship series of the first set on Dranga's delivery gave Underwood and Rosenberg a good end-off in their own doubles finale with Dranga and Sabin. The youngsters used lobbying tactics to advantage, but their opponents were not far behind with their own service.

In the second set, a service break on Rosenberg in the third game and another on Underwood in the fifth when his partner missed two somewhat easy overheads, enabled Dranga and Sabin, by holding their own deliveries throughout, to win the set at 6-2.

Games followed service to the eighth game of the important third set, when Underwood and Rosenberg again cracked Dranga's delivery to assume a 5-3 lead. A missed overhead by Dranga lost the final point to a grand finish in favor of the younger players.

Underwood and Rosenberg got off on the right foot after the resumption by breaking through Dranga in the first game of the fourth set. Games followed service to 5-3, when Dranga again had to serve. With the score 15-40 against them, Dranga and Sabin finally were freed after a sensational last rally which brought a thundering applause from the gallery. The complete score in favor of Underwood and Rosenberg was 6-2, 6-2, 6-3.

A. S. Milne, Vancouver veteran, father of the leading mainland young players, Colin and Jess Milne, won the veteran's singles defeating W. Marston, 6-2, 6-4. Dune Williams, Vancouver, defeated Colin Gamlin, Vancouver, public courts champion, and Williams' doubles partner in the final of the men's consolation, 6-3, 6-4, 6-2. Mrs. R. B. Wilson, Victoria, won the women's consolation by beating Miss Betty H. Featherstone, Victoria, 5-7, 6-4, 6-1.

Defeat St. Louis 7 to 2 and 6 to 4 to Gain on Idle New York Giants in National Baseball League; Detroit Tigers Move Ahead of Yanks in American

A brilliant recovery by Chicago Cubs has left the club with a very good chance to stage another comeback in the coming home stand against the eastern teams in the National Baseball League.

Five games behind the league-leading New York Giants, the Cubs regained a full game yesterday by beating St. Louis Cardinals 7 to 3 and 6 to 4 in a double-header, while New York's game against Boston was halted by rain. And, in winning, the Cubs beat the Dean brothers.

Paul Dean, younger brother, was the opening game victim as Billy and Babe Herman nipped him for a homer apiece in the fifth and he failed to survive the next frame. Babe Namer got another circuit blow off Jess Haines. Dizzy lost the second, although Jim Collins got his twenty-sixth homer.

The Pittsburgh Pirates and Cincinnati Reds played yesterday's other National League game as two contests in the east were washed out, and Pittsburgh came out ahead 9 to 6.

TIGERS MOVE AHEAD
Detroit's Tigers increased their American League lead over the New York Yankees to 4 and a half games by beating Cleveland Indians 6 to 5 in the extra frame. Besides scoring the winning run, Marvin Owen socked a homer and started a triple play.

The Yankees attracted a record crowd at Boston but failed to get more than an even break with the Red Sox. While 46,706 fans looked on and about 20,000 more regretted their failure to arrive early enough to get into the park, Boston won the first game 6 to 4. New York came back to take the second game 7 to 1.

George Barnshaw, working for the first \$500 bonus he is to get for victory over ten, pitched the Chicago White Sox into an even break with St. Louis in a double bill. Brown won the first 4 to 2, but dropped the second 3 to 2.

Washington and Philadelphia started to play a double-header but finished with one seven-inning tie at 1 to 1 when rain ended their activities.

Some of the Winners at British Empire Games

While Great Britain almost completely dominated the track events at the British Empire Games in London, Canada managed to capture some of the major titles. Above are four of the prominent athletes of the Empire who scored brilliant victories. Left is Godfrey Hounsfield of England, who won the 440-yard event in 48 seconds to set a new British Empire record. He also was a member of the English quartette which captured the mile relay to record time. Top center, is Jack Lovelock of New Zealand, who ran away with the mile race in record breaking time. Lower center is Harold Webster of Canada who won the coveted marathon event. Right, is Phil Edwards, British Guianian, at present resident in Canada, who won the 880-yard race in 1:54.1.

Verdun Park Take Lead In Football

Eastern Champions From Montreal Whip Prince Albert City Reds 4 to 0 in Opening Game of Canadian Final; Reds Are Strengthened For Second Battle To-day

(Canadian Press)
Winnipeg, Aug. 13.—A fighting soccer team from northern Saskatchewan was running true to form to-day and prepared for the second of a three-game series confident of its power to win the Dominion Football Association championship.

Prince Albert City Reds, western Canada titleholders, re-asserted their lineup and predicted victory in to-day's title game with Verdun Park that would even the series. The eastern champions won the first game Saturday 4 to 0.

Defeat has not dimmed the optimism of Jimmy Proudfoot, Reds' captain. "It merely indicates we are running true to form," Jimmy optimed. "In all our playdown engagements this season we have lost the first game only to come back and win the series."

BRILLIANT CENTREBACK
First move on the cards will be the return of "Tuffy" Davis to the centre position. It was the thrilling performance of "Tuffy" that gave Reds victory in the deciding game with Western United for the western crown. His inspired plays resulted in a 4 to 1 victory and "Tuffy" scored three of the goals. He did not play Saturday.

Jack Boyd also will be back in his old position at half-back to give the team better balance. Carrying on without John Duguid, their captain and star full-back, Verdun Park, skippered by youthful Humphrey Payne, will attempt to set the pace that brought them victory Saturday night. Larry Fitzpatrick was the hero of the game, shooting two goals and assisting in a third. Castonguay and Bennett each netted once.

The eastern champions flashed a dimmy attack right from the start on Saturday. Brady and Gillespie put up a magnificent defense, but were hard pressed. From a fast break-away in his own half Fitzpatrick, tricky Verdun centre, notched the opening thrust. He out-manoeuvred the Red defense and drilled the ball past Milne from close range. Reds almost equalized in the closing minutes of the half when a whistling drive by Boyd was deflected around the goal post. McLean, Verdun net man, was forced to make a flying leap across the goal-mouth to turn the drive aside.

Turning point in the game came in the second half, when Bennett forced a rebound for a play that sealed the Reds' fate. Reds appeared to be tiring under the terrific pressure when Gillespie, Red left-back, banged the ball against Bennett. The rebound, a long dropping flight, foiled Milne, Reds' goalie, as he came out for the play and the ball sailed over his head into the net corner.

Fitzpatrick engineered the play for the third corner and his second of the game when he scored with a terrific shot from twenty yards out. The ball hit the net just beneath the bar. "Dempsy" Castonguay, diminutive Verdun outside left, scored the fourth. The last goal took the Reds by surprise. With only ten minutes left to play Castonguay left the Red defense flatfooted with a fast run around the right and shot the ball into the far corner of the net. Reds put up a brave but losing fight and both teams were breathing hard from their exertions at the final whistle.

Pat Cummins Sets World Boat Record

Tacoma Driver Pilots His Outboard at Rate of 42.482 Miles an Hour to Shatter Class C Record at P.N.W. Championships at Harrison Lake

Harrison Hot Springs, Aug. 12.—One world outboard record was left in the wake of the speeding outboards that raced over the picturesque waters of Harrison Lake yesterday in the Pacific Northwest outboard championships. Driving his trim "Bottoms Up" at the rate of 44.132 miles per hour in the second heat of the class C racing runabouts, Pat Cummins set a new world mark for this event. The former record was 42.482 miles per hour.

Cummins and Tom Carstens, rival drivers from Tacoma, staged a spirited duel for the class C runabout championships, and in every heat the old world mark was shattered. In the first heat on Saturday Carstens edged the old mark in the time of 4:00, which could not be declared official because the required number of entries did not start. In the second heat yesterday Cummins set his world record time and then in the third heat Carstens winning it, took the class C championship in this division was only one-fifth of a second behind Cummins' time in the second heat.

Carl Blackstock, Seattle, triumphed in the class P event for high-powered hydroplanes, and runabouts. Driving his "Hellydell III" he swept to three first places in the latter event and in "Hellydell" he collected 92 points against a total of 850 scored by his closest rival, Harold Fell, Wenatchee.

Class A hydroplanes, division one, Tom Blackstock, Seattle, "Floating Power," 1,200 points. Division two—Dalton, Tacoma, "Concor Special," 1,300 points.

Class C hydroplanes, division one—1. Bob Watkins, Hoquiam, Wash. "More or Less," 1,100 points. 2. Jack Clark, Nanaimo, "Ship Tug," 685 points. 3. R. F. Darnall, Victoria, "Stardust," 500 points.

Division two, class C, hydroplanes—1. Pat Cummins, Seattle, "Bottoms Up," 1,200 points. 2. Tom Carstens, Tacoma, "Def," 825 points. 3. Dave Carstens, "Alaska III," 825 points. 4. Carl Blackstock, Seattle, "Hellydell III," 800 points. 5. A. B. Speckels, Seattle, "Cat," 600 points. 6. L. J. Koebel, Seattle, "Zimmy," 450 points.

Class F, runabouts, division 1—1. Carl Blackstock, Seattle, "Hellydell III," 800 points. 2. E. H. Stray, "chee Ace," 850 points. 3. J. F. Webb, Wenatchee, "Spider Web," 700 points.

Class C, service runabouts, division one—1. Jack Calcock, Seattle, "Imp," 1,025 points. 2. Bus Tutthill, Seattle, "Tut," 1,000 points. 3. Leo Stark, Seattle, "Apache," 694 points. Division two—1. Pat Cummins, Seattle, "Bottoms Up," 1,300 points. 2. Frank Edwards, Chilliwack, "Tut," 825 points. 3. Dave Hall, Seattle, "Dark Horse," 500 points.

Class C racing runabouts, division one—Leo Stark, Seattle, "Apache," 600 points. Division two—1. Tom Carstens, Tacoma, "Big Best," 1,100 points. 2. Pat Cummins, Seattle, "Bottoms Up," 1,000 points.

BEAVERS BEAT NORTH SAANICH

Whipping the North Saanich Service Club 8 to 2, Beavers came out of the slump which eliminated them from the senior A section championship of the Lower Island Softball Association, to advance to the next round of the Poodle Dog Cup knockout series on Saturday evening.

Lloyd Jones turned in a good pitching performance for the Beavers, while Chuck Cunningham went the route for the Service Club. A homer by Lery and heavy hitting by Tye and Whitehead were features of the encounter.

Wanderers And Churchmen Win

Take Knockout Cricket Games By Narrow Margins From Incogs and Albions

By a margin of one run Wanderers eliminated Incogs from the second knockout series of the local cricket association at Macdonald Park on Saturday, while Five C's took the measure of the Albions by three runs at Beacon Hill in the other series fixture.

In a friendly game at Duncan, Victoria had no difficulty in defeating Cowichan by seventy-five runs and seven wickets as Arthur Darcus smashed out runs in splendid batting form to lead the scores of the day with an even eighty.

Tydale was the only Incogs batsman to make any showing against the Wanderers by scoring 44 runs and forty-seven before being caught by Nation.

Jones, More and Grant all helped the Wanderers to secure their total of 103, one better than their opponents.

Jack and George Payne were in deadly form in the other series fixture as they took all Albions' wickets to give the Five C's their victory. Jack took six wickets for twenty-five runs in eight overs, while George took the other four for twenty-six in 8.3 overs.

Meredith and Kinch both reached double figures with Darcus as Victoria downed Cowichan in the other game of the day. Darcus also bowled well, taking five wickets for twenty-six runs in 6.3 overs.

A. D. Findlay And Mrs. South Winners

The mixed foursome knockout competition which has been engaging the attention of members of the Uplands Golf Club for some time was decided yesterday when A. D. Findlay and Mrs. F. L. South defeated Mr. and Mrs. E. H. M. Foot by the close score of one half hole up.

The winners started the final round under a handicap of four and one-half holes, which was increased to five and a half at the first hole. The next six holes were won to place them one-half up. On the last nine they were decidedly off and their opponents won enough holes to be dormie one-half up at the eighteenth. The winners won this hole and the match by one-half up.

The scores in the semi-annual and final follow:
SEMI-FINAL
A. D. Findlay and Mrs. F. L. South defeated Mr. and Mrs. D. A. Matthew 3 1/2 and 2.
Mr. and Mrs. E. H. M. Foot defeated M. R. Pearce and Miss M. Hatch, 1 1/2 up.

FINAL
A. D. Findlay and Mrs. F. L. South defeated Mr. and Mrs. E. H. M. Foot, 1/2 up.

price, plus the INCOME, will be
from 15% to 27%.

THESE HAD BEEN VERY MARKED APPRECIATION in the value of these securities during this last month owing, it has been stated, to the BUYING BY LARGE INSTITUTIONS. We do not believe that any part of the BRITISH EMPIRE will be allowed to go into default.

Revenues of All Provinces Are Increasing
THE GOVT. BY PREMIER BENNETT, NON REVILLE CHAMBERLAIN AND PRESIDENT ROBERTSON IS A RETURN TO THE COMMODITY PRICES OF 1924. Your fixed income will suffer and appreciation of value of securities should be, for many at least, their goal. Security being first consideration.

If You Lend \$1,000 at 5%
(By purchasing a Bond that does not appreciate in value, and commodity prices advance 15% during the next year YOUR REAL WEALTH IS 1945.00.)

Faith in Our Provincial Securities Will Be Well Paid for
They are much underpriced. The Dominion Government Bonds show them to stand at 125 compared with 100 in 1924. IN BOMB CASE conversions from one to the other are advised.

Heavy Export Sales Firm Wheat Prices

Winnipeg, Aug. 13.—Heavy sales of Canadian wheat for export account to-day independent strength to futures prices on the Winnipeg Grain Exchange. In the face of Liverpool downturns the market firmed up, and wheat closed 1 1/4 cents higher. A slight selling wave near the finish robbed the market of its maximum gain and left the closing price 2 1/2 cents under the day's top. A fair portion of the total advance was left over from Saturday's advance, which was up 1/2 cent, December at 89 1/2 and May at 93 1/2 to 93 3/4 cents. Foreign buyers were in the market for approximately 1,000,000 bushels of Canadian wheat and this support, coupled with purchasing from other sources provided a firm basis for the upturn. The futures liquidation of Saturday appeared to have run its course and there was no heavy pressure of offerings.

To-day's Grain Markets

WINNIPEG				CHICAGO			
Wheat—P. C.	Open	High	Low	Wheat—P. C.	Open	High	Low

LIVERPOOL
Liverpool, Aug. 13.—Following are to-day's per bushel wheat quotations: c.i.f. Liverpool. Canadian money at current sterling exchange rate of 4/6 and 1/2 pence per pound.

WHEAT—To-day's Rate
No. 2 Man. sup. Atlantic 80 1/2
Argentine (Russo) Sept. 82 1/2
Australia (Russo) Sept. 83 1/2
West Australian 84 1/2

BIG GOLDS IN BRISK DEMAND
Toronto, Aug. 13.—Trading favor returned to the high-price gold shares to-day and some of them reached the best prices recorded in more than a month.

Noranda hit \$44 for a 62 advance and closed at \$43.50, while Falconbridge had a small gain and the other base metals closed unchanged.

Bar Exploration dropped to \$1, although reports were out that the company had important discoveries on their Snake River claims. Eldorado closed at \$2.50 for a loss of 5 cents. Premier closed at 130, down 5.

Mild weakness was shown by Little Long Lac, San Antonio, B.R.N. and Braden and Britannia. Blacon, however, got back to \$1.50, up 1/4.

LONDON METALS
London, Aug. 13.—Closing: Copper, standard, 100 lbs. 115 1/2; tin, 120 1/2; zinc, 100 lbs. 115 1/2; silver, 100 lbs. 115 1/2; gold, 100 lbs. 115 1/2.

LONDON MONEY
London, Aug. 13.—Money: 1% per cent; discount rate, 1% per cent; three-month bill, 1% per cent.
